

## NEWS RELEASE

### **IDS Completes Final Development Stage of TRID Soon After Hitting All-Time Company Document Total Record**

**SALT LAKE CITY, Aug. 27, 2015**— Mortgage document preparation vendor International Document Services, Inc. (IDS), announced it has completed all of its six major development releases for the TILA/RESPA Integrated Disclosures (TRID) as of July 22, according to its previously developed implementation plan. During the final development stage in June, the firm also hit an all-time company record for the total number of documents generated.

Due to the revised implementation deadline of October 3, IDS will continue to improve some aesthetic facets and optimize the code of other aspects of its TRID changes to improve the user experience.

“We took full advantage of the extra time to refine our final major system update and will continue to do so to ensure we deliver a TRID solution that is IDS-ready in all aspects,” said Mark Mackey, CEO of IDS. “The fact that IDS continues to grow, even in the midst of such a sea change tells us that there will be life after TRID. This industry has undergone sweeping reforms before, though certainly none with the size and scope of TRID, and we feel confident that the industry will find its footing again. Those lenders that have adopted digital technology to manage their disclosures are in an even better position weather the storms TRID may bring.”

After six major TRID-related software releases this year, 70 percent of the idsDoc platform has been affected by TRID. To accommodate these changes, IDS has increased its server computing power by an estimated 50 percent and doubling both its data storage and database processing resources. In the midst of its final TRID preparations, IDS set an all-time company record in June for the number of total documents executed in one month.

More information on the IDS TRID solution, as well as TRID educational resources, can be found at <http://www.idsdoc.com/more>.

#### **About IDS, Inc.**

IDS, founded in 1986 in Salt Lake City, Utah, is a nationwide provider of mortgage documents and compliance.
